FIRE FIGHTERS SAFETY SERVICES is a trusted provider of professional fire protection services, offering reliable and customized solutions across various industries. We specialize in the design, installation, inspection, and maintenance of water- and foam-based fire-fighting systems, ensuring safety, compliance, and operational readiness.

Whether it's a basic fire protection setup or a complex fire-fighting system, our experienced team delivers efficient, compliant, and cost-effective services tailored to your specific needs. We stay aligned with evolving industry standards and work closely with clients to ensure every project meets both regulatory and practical requirements.

Our services follow globally recognized standards and are supported by certifications such as UL, FM, CE, and Lloyd's Register. We also operate under ISO 9001, ISO 14001, and ISO 45001 certifications, highlighting our commitment to quality, environmental responsibility, and workplace safety. At **FIRE FIGHTERS SAFETY SERVICES**, we focus on building strong, long-term relationships with our clients by combining technical expertise with responsive support and a personalized approach to fire safety.

About Us

Our Services

Fire Hydrant system

- Clean Agent Fire Suppression System
- Co2 gas based extinguishing system
- Aragonite gas based extinguishing system
- Novec 1230 and Inert Gas Clean Agent Systems
- FM-200 gas based extinguishing system
- Portable & Wheeled Fire extinguishers
- Industrial Dry Chemical System
- Kitchen Hood fire suppression system

Fire Sprinkler system

- Wet Pipe Sprinkler System
- Dry Pipe Sprinkler System
- Deluge Sprinkler System
- Pre-Action Sprinkler System
- Foam Water Sprinkler System
- Water Mist System

Medium/High Velocity Water Spray System (MVWS/HVWS)

- Deluge HVWS System
- Manual HVWS System
- Automatic HVWS with Pilot Line Detection
- Zoned HVWS System
- Cooling MVWS System
- Exposure Protection MVWS
- Open Nozzle MVWS System
- Ring Header MVWS

Fire Pumping System

- Electric Motor Driven Fire Pump
- Diesel Engine Driven Fire Pump
- Jockey Pump (Pressure Maintenance Pump)
- Steam Turbine Driven Fire Pump
- Vertical Turbine Pump
- Split Case Pump (Horizontal Split Case)
- End Suction Fire Pump
- Inline Fire Pump

Water Curtain System

- Open Nozzle Water Curtain System
- Automatic Water Curtain System
- Manual Water Curtain System
- Deluge Valve-Based Water Curtain
- Spray Nozzle Water Curtain
- Linear Water Curtain System
- Ring Header Water Curtain System
- High Pressure Water Curtain
- Zone-Controlled Water Curtain
- Pipe-Inbuilt Nozzle Water Curtain System

Foam Deluge System

- Low Expansion Foam Deluge System
- Medium Expansion Foam Deluge System
- High Expansion Foam Deluge System
- Foam-Water Sprinkler Deluge System
- Foam Chamber Deluge System
- Foam Monitor Deluge System
- Balanced Pressure Foam System
- Bladder Tank Foam Deluge System
- Mobile Foam Trolley System (for manual deluge use)

Water Deluge Systems

- Manual Water Deluge System
- Automatic Water Deluge System
- Pre-Action Deluge System
- Zoned Deluge System
- Pilot Line Actuated Deluge System
- Electrically Actuated Deluge System
- Pneumatically Actuated Deluge System

Water Drencher System

- Manual Water Drencher System
- Automatic Water Drencher System
- Deluge Valve Operated Drencher System
- Electrically Actuated Drencher System
- Thermally Actuated Drencher System
- Zone-Wise Drencher System
- Wall Mounted Drencher System
- Window/Glazing Protection Drencher System
- Perimeter (Boundary) Drencher System

Water Mist Suppression

- Low Pressure Water Mist System
- Intermediate Pressure Water Mist System
- High Pressure Water Mist System
- Single Fluid Water Mist System
- Twin Fluid Water Mist System (Water + Air or Inert Gas)
- Pump-Based Water Mist System
- Cylinder-Based (Pre-pressurized) Water Mist System
- Automatic Water Mist System
- Manual Release Water Mist System
- Nozzle-Based Zonal Water Mist System

In-Rack Sprinkler System

- Single Row In-Rack Sprinkler System
- Double Row In-Rack Sprinkler System
- Back-to-Back In-Rack Sprinkler System
- Double Interlock Pre-Action In-Rack System
- Dry Pipe In-Rack Sprinkler System
- Wet Pipe In-Rack Sprinkler System
- Pendent-Type In-Rack Sprinklers
- Upright-Type In-Rack Sprinklers
- Ceiling + In-Rack Combination System

FIRE DETECTION SYSTEM

- Conventional fire detection system
- Addressable fire detection system
- High sensitivity smoke detection system
- Industrial Flame and Gas Detection System
- UV/IRS Ultraviolet/Infrared Flame Detection System
- LPG Gas Detection for Gas Storage and Catering Areas

Annual Maintenance Contract for Fire Protection System

Fire fighters safety services takes Annual Maintenance Contract for companies that includes Fire fighting, Fire alarm, Emergency Lighting, Voice Evacuation and Gas Suppression system. As a part of the AMC, we also help our clients with the necessary documentation, clearances and periodic certifications that are required to install and maintain their fire fighting systems. We have a well trained maintenance team which consists of skilled engineers & professional technicians who undertake Quarterly Service Schedule for AMC customers to ensure that the whole fire fighting system works consistently fine in the clients premises.
